ROYAL HOSPITAL FOR NEURO-DISABILITY:
Administration : Governance records : Letters
received by the Board of Management

Note received by Board of Committee on space
between patients for good ventilation,
possibly written by Florence Nightingale, c. 1861

Ref No : GB 3544 RHN-AD-1-10-13

In relation to the
quantities for ventilation
I think 800 feet
would be a good medium
but would much rather
the candidates should give
their own judgment than
rely on the opinion of
the committee

Special Guard should be
had to the fact that a
large portion of the family
will require to occupy
the rooms day & night
No further delay should

be allowed; the persons
should be in at a given
hour on the 29th of
September
